

## TFC Job Specification – Research and Development Manager

**TFC Research and Innovation Limited** is a scientific engaged research company based in Dublin, Ireland, with a team spread across Europe. The company works across a number of sectors focused on: clustering, better practice guides, conceptual architecture, project and risk management, standardization, market outreach and proposal preparation. We aim to reinforce our growing team through both focused project and proposal management of scientific research projects, which broadly scoped includes Artificial Intelligence, Energy Transition, Operational Security, eHealth and Cancer Research.

We seek:

- An experienced, versatile, analytical and hard-working R&D Project Manager with a practical approach to work and is very open-minded to creative thinking.
- Has excellent communication and presentation skills, able to build and maintain professional relationships with partners and stakeholders.
- Be individually driven with initiative, demonstrating leadership and has the capacity for influencing and negotiating well on behalf of **TFC** both internally and when client/partner facing.
- Scout funded and tendering opportunities in line with the ethos and direction of the CEO and business growth direction.
- Contribute to **TFC** activities in technical projects and interact with International and European partners.
- Be able to manage/oversee financial project budgets, ensuring that they meet required expectations of funding bodies and fit with the overall company finances.
- Contribute to report deliverables within scientific research and innovation projects.
- Be an innovative and results orientated professional with the ability to deliver change to agreed timeframes.
- Contribute to the creation of new business opportunities including preparation of new proposals within the framework of National, European and International R&D programmes.

Having a direct involvement in the area of standardization would be an advantage.

Interested parties should send their CVs in confidence to: [contact@tfcengage.com](mailto:contact@tfcengage.com).

Closing date: **30th July 2023**.
